Senator R Brown
Parliament House
Canberra ACT 2600

Dear Senator Brown

I enclose a copy of a letter sent to the Prime Minister.

I am bringing the issues raised at a recent meeting with some representatives of the Pacific Island countries to your attention, as we believe they have significant implications for the environment in our region. I ask that you might raise the matter in the Parliament to help reinforce our concerns and ensure that this significant issue for our region is not lost among the other many competing issues of our day.

On behalf of those we represent, we commend your advocacy for the very significant environmental issues you continue to bring before our Parliament and nation.

Yours faithfully

Br P S Cram
30th May 2009.
