To the Conference of Leaders of Religious Institutes in NSW,

Thank you for your letter regarding the CPRS and your suggestions for it's improvement.

I wholeheartedly agree with your analysis of the CPRS as well as your prescriptions to amend this legislation. I also agree that any emissions trading scheme, as a stand-alone method to combat greenhouse gas emissions, is insufficient and that a broader approach is essential.

The necessity of developing new industries and jobs to encourage a shift away from coal-fired power is unequivocal.

Thank you for your initiative and I wish you all the best for your future campaigns,

Yours sincerely,

John Kaye
